MEET DEWAYNE!

Dewayne Hart is an **"All-Cyber"** professional dedicated to keeping cybersecurity on target! He has developed common-sense approaches and roadmaps that position businesses and citizens to remain proactive against threat actors. His speaking engagements deliver relevant information concerning cybersecurity leadership, career development, security best practices, and essential strategies to navigate the digital landscape. Here is a secret about Dewayne: He arms his audience with knowledge, resources, and tools to wear a **"Hackers Hat."**

Before entering the commercial IT world, Dewayne spent 20 years in the U.S. Navy, specializing in maintaining computer and weapons defense systems. His commitment to technology extends beyond his military service. In 2014, he founded Secure Managed Instructional Systems, LLC (SEMAIS). The company offers Cybersecurity Advisory and Workforce Development services, supporting organizations' cyber defense and risk management initiatives. SEMAIS's motto is **"Sustaining 360-degree of Cyber Visibility."**

Dewayne is also a prominent figure in the cybersecurity community. He hosts the Chief of Cybersecurity YouTube Channel, which provides various cybersecurity topics impacting our digital lives, such as Artificial Intelligence, Cybersecurity Leadership, Cyber Awareness, Workforce Modernization, and Cybercrime. In 2022, he published **"The Cybersecurity Mindset: A Virtual and Transformational Thinking Mode,"** which transforms cybersecurity cultures and roadmaps best practices. He uncovers unknowns, shares valuable insights, and reveals hidden tactics that leave citizens and businesses vulnerable. In June 2025, he will release his follow-up work on Cybersecurity Leadership.

As a featured writer for the Forbes Technology Council, his articles position readers to stay safe online, balance technology risks, achieve business objectives, and mitigate cyber threats. His articles have reshaped security roadmaps and provide approaches to having a "Hacker's Mindset". Articles such as *"The Secret Link Between Health IT Transformation, AI, and Cybersecurity," "Developing A Cyber-Focused Company Culture Through Leadership,"* and *"Uncovering How AI's Dual Relationship with Cybersecurity Operates"* are reshaping security programs and operations.
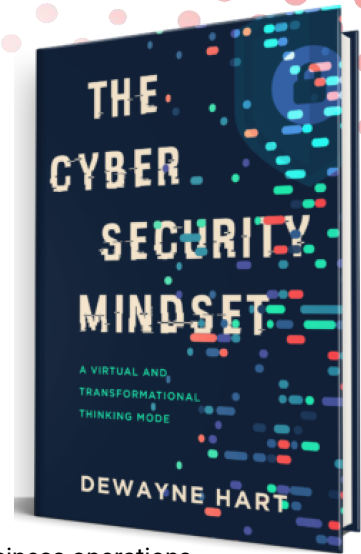

TOPICS DISCUSSED

- ❖ Human-Based Security – A Cybersecurity Mindset Keeps You Balanced and Secure from Hackers
- ❖ Cracking the Code: Unveiling the Connection Between AI and Cybersecurity
- ❖ Cybersecurity Leadership: Understand Your Capabilities or Risk Failing
- ❖ You Heard It Once, Now Again - Stop Feeding the Hackers' Appetite
- ❖ Business Strategies for Success, Ways to Defeat Cybercrime and Win the Cyberwar
- ❖ Exploring Artificial Intelligence: Sorting Truth from Myth and Anticipating What's Next
- ❖ Customized Speaking Topics

WHY YOU SHOULD HEAR DEWAYNE SPEAK!

- ❖ He simplifies the cybersecurity landscape and makes it relevant to working roles, best practices, and business operations.
- ❖ With extensive knowledge and experience, he has produced over 100 podcasts. Each episode features an engaging conversation and practical solutions covering various cybersecurity sectors.
- ❖ He has written the book on cybersecurity!
- ❖ He brings industry participation, workforce improvements, and security consulting experience to the speaking arena.
- ❖ When he delivers "Cyber Talk," his audience gains a fresh perspective and unique insights into road mapping cybersecurity.
- ❖ He speaks on intriguing topics to inform and raise awareness concerning trends that impact businesses and end users.

KEYNOTE PRESENTED

- ❖ **Digital Workforce Readiness: Unveiling Key Strategies To Secure Careers and Business.**
  The keynote address explored the impact of artificial intelligence (AI) on careers and digital security. The audience was guided through how AI and cybersecurity impacts cyber protection, job roles, and business operations. It also highlighted the transformational strategies businesses and career professionals must adopt in response to AI's evolution.

OUTSIDE OF CYBERSECURITY

Beyond his focus on cybersecurity, Dewayne has a wealth of diverse interests. He enjoys music, traveling, cooking, and exploring various cultures, contributing to his well-rounded professional life. His educational background reflects this diversity, as he holds a Master of Science in Information Assurance from the University of Maryland. Additionally, he has obtained several industry-recognized certifications from Certified Information Security System Professional (CISSP), Governance, Risk, and Compliance (CGRC), Certified Ethical Hacker (CEHv8), and Computer Network Defense Architect (CNDA).
